

On December 11, 2017, the Worth County Sheriff's Office was called to HWY 105 between Yarrow Ave and 450th St for a semi jack-knifed in the ditch around 11:30 am. The driver was uninjured in the accident. The driver was not from the area and had never been on this road. This is a reminder that when the weather gets bad and the roadway has sleet, ice or looks wet this time of year to slow down. This is especially important when driving in an unfamiliar area. Please allow more time for travel and drive safely.
